

Stage 6 Textiles and Design

120-period two-year master delivery register | v1.0

This register preserves the accepted Year 11 periods 1–60 and appends Year 12 as periods 61–120. Record local delivery variance without rewriting the canonical sequence.

Year 11	Preliminary periods 1–60	Year 12	HSC periods 61–120
Planning basis	2027 only	Actual delivery	Year and timetable Teacher to confirm
Evidence	Brief confirmation only	Privacy	No student personal data

Preliminary periods 1–10

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
1	Preliminary	Site/theory	Design brief and requirements				
2	Preliminary	Site/theory	Elements of design				
3	Preliminary	Site/theory	Principles of design				
4	Preliminary	Project/folio	Applied design analysis				
5	Preliminary	Site/theory	Focus areas and design types				
6	Preliminary	Site/theory	Factors affecting design				
7	Preliminary	Site/theory	Inspiration and development				
8	Preliminary	Project/folio	Project 1 design direction				
9	Preliminary	Site/theory	Manufacturing and pattern information				
10	Preliminary	Project/folio	Manufacturing plan				

Preliminary periods 11–20

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
11	Preliminary	Practical	Approved technique sample 1				
12	Preliminary	Practical	Approved technique sample 2				
13	Preliminary	Site/theory	Drawing and annotation				
14	Preliminary	Site/theory	Audience, purpose and medium				
15	Preliminary	Project/folio	Production communication				
16	Preliminary	Project/folio	Design review				
17	Preliminary	Project/folio	Project 1 readiness				
18	Preliminary	Practical	Project 1 manufacture - stage 1				
19	Preliminary	Practical	Project 1 manufacture - stage 2				
20	Preliminary	Practical	Project 1 manufacture - stage 3				

Preliminary periods 21–30

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
21	Preliminary	Practical	Project 1 manufacture - completion				
22	Preliminary	Practical	Project 1 evaluation evidence				
23	Preliminary	Site/theory	Fibre classification				
24	Preliminary	Site/theory	Molecular fibre structure				
25	Preliminary	Site/theory	Morphological fibre structure				
26	Preliminary	Project/folio	Fibre-to-end-use reasoning				
27	Preliminary	Site/theory	Natural cellulosic fibres				
28	Preliminary	Site/theory	Natural protein fibres				
29	Preliminary	Site/theory	Manufactured fibres and blends				
30	Preliminary	Project/folio	Fibre selection				

Preliminary periods 31–40

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
31	Preliminary	Site/theory	Staple-spun and filament yarns				
32	Preliminary	Site/theory	Twist and spinning systems				
33	Preliminary	Site/theory	Textured and novelty yarns				
34	Preliminary	Project/folio	Yarn structure evidence				
35	Preliminary	Site/theory	Yarn aesthetic and comfort properties				
36	Preliminary	Site/theory	Yarn durability, strength and care				
37	Preliminary	Site/theory	Structure-property relationships				
38	Preliminary	Project/folio	Yarn end-use justification				
39	Preliminary	Site/theory	Woven structures				
40	Preliminary	Site/theory	Knitted structures				

Preliminary periods 41–50

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
41	Preliminary	Site/theory	Non-woven structures				
42	Preliminary	Practical	Fabric structure identification				
43	Preliminary	Site/theory	Properties and end use				
44	Preliminary	Site/theory	Planning a fair textile test				
45	Preliminary	Project/folio	Test plan and results structure				
46	Preliminary	Practical	Authorised comparative textile test				
47	Preliminary	Project/folio	Evidence-based Project 2 choice				
48	Preliminary	Practical	Project 2 manufacture - stage 1				
49	Preliminary	Practical	Project 2 manufacture - stage 2				
50	Preliminary	Practical	Project 2 completion and evaluation				

Preliminary periods 51–60

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
51	Preliminary	Site/theory	Industry development and sectors				
52	Preliminary	Site/theory	Local and global context				
53	Preliminary	Site/theory	Careers and training				
54	Preliminary	Site/theory	Quality assurance and control				
55	Preliminary	Site/theory	Roles and value				
56	Preliminary	Project/folio	Industry quality/value case				
57	Preliminary	Site/theory	Design retrieval and response planning				
58	Preliminary	Site/theory	Properties retrieval and response planning				
59	Preliminary	Site/theory	Course synthesis				
60	Preliminary	Project/folio	Evidence and course review				

HSC periods 61–70

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
61	HSC · Term 4	Site/theory	Course map and two-year bridge				
62	HSC · Term 4	Project/folio	MTP focus areas and evidence boundary				
63	HSC · Term 4	Site/theory	From inspiration to a workable brief				
64	HSC · Term 4	Project/folio	Concept checkpoint and next actions				
65	HSC · Term 4	Site/theory	Tracing one focus area over time				
66	HSC · Term 4	Site/theory	Factors shaping design change				
67	HSC · Term 4	Site/theory	Turning evidence into analysis				
68	HSC · Term 4	Project/folio	Historical influence translated, not copied				
69	HSC · Term 4	Site/theory	Designer practice, inspiration and signature				
70	HSC · Term 4	Site/theory	Internal and external success factors				

HSC periods 71–80

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
71	HSC · Term 4	Site/theory	Designers and trends				
72	HSC · Term 4	Project/folio	Contemporary influence and concept refinement				
73	HSC · Term 4	Site/theory	Colour principles for specific end use				
74	HSC · Term 4	Site/theory	Printing and dyeing processes				
75	HSC · Term 4	Site/theory	Planning controlled colouration evidence				
76	HSC · Term 4	Practical	Authorised colour sample and decision				
77	HSC · Term 1	Site/theory	Applique, embroidery and surface decoration				
78	HSC · Term 1	Site/theory	Hand and machine technique decisions				
79	HSC · Term 1	Practical	Authorised decoration sampling				
80	HSC · Term 1	Project/folio	Comparing samples and selecting a method				

HSC periods 81–90

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
81	HSC · Term 1	Site/theory	Cultural context and respectful evidence				
82	HSC · Term 1	Project/folio	Meanings, resources, skills and processes				
83	HSC · Term 1	Project/folio	Influence without appropriation				
84	HSC · Term 1	Project/folio	Cultural evidence checkpoint				
85	HSC · Term 1	Project/folio	Generating ideas and selecting a direction				
86	HSC · Term 1	Project/folio	Functional and aesthetic analysis				
87	HSC · Term 1	Project/folio	Drawings and manufacturing specifications				
88	HSC · Term 1	Project/folio	Time, resources and decision management				
89	HSC · Term 1	Project/folio	Building a fair and useful investigation				
90	HSC · Term 1	Practical	Recording samples, observations and results				

HSC periods 91–100

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
91	HSC · Term 1	Project/folio	Evaluation and justified design change				
92	HSC · Term 1	Project/folio	Experimentation portfolio checkpoint				
93	HSC · Term 2	Site/theory	Innovation definitions, needs and drivers				
94	HSC · Term 2	Site/theory	Emerging fibres, yarns and fabrics				
95	HSC · Term 2	Site/theory	Product, process and societal impacts				
96	HSC · Term 2	Project/folio	Innovation decision for the MTP				
97	HSC · Term 2	Site/theory	Microfibres, bicomponent yarns and washable webs				
98	HSC · Term 2	Site/theory	Retrieving structure-property relationships				
99	HSC · Term 2	Site/theory	Selecting performance for end use				
100	HSC · Term 2	Project/folio	MTP material evidence checkpoint				

HSC periods 101–110

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
101	HSC · Term 2	Site/theory	Machinery and production technologies				
102	HSC · Term 2	Site/theory	Seamless technology and construction change				
103	HSC · Term 2	Practical	Decorative enhancement, efficiency and quality				
104	HSC · Term 2	Project/folio	Production technology decision				
105	HSC · Term 2	Site/theory	Defining end-use requirements				
106	HSC · Term 2	Site/theory	Finishes, performance and care				
107	HSC · Term 2	Site/theory	Fibre, yarn and fabric justification				
108	HSC · Term 2	Site/theory	Properties synthesis under command terms				
109	HSC · Term 3	Site/theory	Industry sectors and supply relationships				
110	HSC · Term 3	Site/theory	Marketplace, product development and marketing				

HSC periods 111–120

P	Stage / term	Type	Planned focus	Date taught	Completion / variance	Evidence checked	Follow-up / initials
111	HSC · Term 3	Site/theory	Workplace, consumer and global links				
112	HSC · Term 3	Project/folio	MTP product communication and label planning				
113	HSC · Term 3	Site/theory	Appropriate textile technology				
114	HSC · Term 3	Site/theory	Sustainability across a product life cycle				
115	HSC · Term 3	Site/theory	Social, consumer and industry issues				
116	HSC · Term 3	Project/folio	MTP sustainability and resource evaluation				
117	HSC · Term 3	Project/folio	MTP completion and evidence handoff				
118	HSC · Term 3	Site/theory	Command terms and response planning				
119	HSC · Term 3	Site/theory	Properties synthesis and misconception repair				
120	HSC · Term 3	Site/theory	Industry and whole-course synthesis
